Hey, that note was a little funny so just wanted to explain—Patrice Bowen called me to say they'd reached out to Steve and he was nervous about talking with them since he didn't want to step on our toes. So I was just trying to assure him that we want his help.

Dear Steve,

This is a belated note following up from the conversation you and I had a while back about the Exide facility in Vernon. We discussed, as DTSC had requested, whether you would be available to share with the Citizen Advisory Group your experiences with the Omaha lead site. Since then, the situation has evolved somewhat and the more immediate need is a "peer to peer" exchange with the Exide team at DTSC. This would not be a public call; it would be limited to you and folks from DTSC's Exide team who are now prepping for a much more expanded area to sample involving up to 10 thousand homes. They would really benefit from a chance to pick your brain about operational and logistical challenges.

I also want to make sure you know that Region 9 leadership, cc'd here, would be very appreciative of your engagement here. As FYI, Enrique manages our Superfund Division and Jeff Scott, the LAND Division. John and Tom are deputies in our SFD and LAND divisions, respectively, and Amy Miller (my boss) is the Enforcement Division Deputy Director. Dusty is the Chief of the Haz Waste Branch in our ORC.

Please let us know if there is anyone else at your end, or in your management chain, that we should check in with.

I will send a separate note to you with a copy to Patrice Bowen at DTSC offering to help with calendaring a call with you and anyone else you think would be useful to include. I'll also work with Patrice to make sure issues / questions for you are shared in advance so we can make the best use of your time.

Thank you!

p.s. R9er's, once we set a date that works with DTSC and Steve, I'll let everyone know so that you or others in your offices can sit in if they wish.
